Government have often observed that the waiving of such charges has contributed to the rise in the percentage of Establish--ment charges of this department and that the percentage should be kept as low as possible. It is, therefore, not desirable to waive the Establishment and Tools and Plant charges already reduced from 18 to 10½% in this case.

3. As regards the execution of the work through the agency of the Sanitary Board, it does not appear desirable that a big work like this amounting to Rs.15,165/- should be got executed under the technical supervision of a ---- Suboverseer in the Sanitary Board. Secretary to the Government of Mysore,

Subject:- Construction of the Aided Sanitary Board High School - Robertsonpet, K.G.F. at an estimated cost of Rs.14,480/-.

Sir,

Adverting to Government Order No.L.4832-5/L.B.61-36-4 dated the 11th January 1937, according sanction for the construction of a - building for the Aided Sanitary Board High School at an estimated cost of Rs.14,480/- I have the honour to state as follows:-

The Executive Engineer, Kolar, has been requested in this office No.T.C.23/25-36 dated the 27th January 1937, to dispose of the work on contract by calling for tenders with a view to complete the construction of the building by the end of May 1937.

In this connection, kind reference is invited to the provisions contained in Article 222 of the District Board Accounts Manual (1932) which runs as follows:-

" For District Fund works carried out by the Public Works Dept. charges for supervision, tools and plant shall be recovered from the District Board concerned at the following rates:- "

"(1) For supervision on the work 17½% on the outlay."
"(2) For Tools and plant, ½% on the outlay."

As the construction of this building is rendered possible only by the munificient donation of Rs.10,000/- by Messrs. A.S.Devaraja Moodaliar and D. Cowasji, Excise Contractor of Robertsonpet and as the major portion of the accumulated funds of the Sanitary Board have been spent for tarring the Krishnaraja Road, Carr Road and a portion of the Malaghat-Marikuppam Road, I request that you will

P.T.C.

be so good as to obtain kind sanction of Government to waive as a special case, in the circumstances explained above, the supervision and tools and plant charges.

The major portion of the cash balance of the Sanitary Board has been invested in the Savings Bank Fixed Deposit which will mature only in June 1939. The withdrawal of this amount immediately will entail loss of interest to the Board. The collection season has commenced just now. A sum of Rs.11,000/- under Cess on Excise Revenue and Rs.15,000/- under Mohatarfa will be collected in the next three months i.e., March, April and May 1937. Hence it is requested that the Board may be permitted to pay the estimated amount of the building viz., Rs.14,480/- in three monthly instalments beginning from 25th March 1937, instead of paying the amount in one lump-sum as desired by the Executive Engineer, Kolar in his letter No.1407 dated the 23rd February 1937.

I have the honour to be,

Sir,

Your most obedient servant,

Sir,

With reference to your letter No.L.7425/L.B.61-36-7, dated 14/4/1937, forwarding a revised estimate for Rs.15,165/- inclusive of E.T.P. charges at 10½ per cent reduced as a special case for the construction of the Aided Sanitary Board High School building at Robertsonpet, through the P.W.D. agency, for countersignature and return, I have the honour to state that the Sanitary Board feel it difficult to bear the E.T.P. charges from their limited resources. The Sanitary Board have at their meeting held on 23/4/1937, passed a resolution to the effect that the work be taken up for execution through their own agency and that the Government be requested to instruct local P.W.D. Officers to give general advice and to supervise the work from time to time according to their convenience. This arrangement was done even when the tarring of roads costing over 70,000/- Rupees was executed by the Sanitary Board and may be sanctioned in this case also. A copy of the resolution is submitted herewith for kind perusal.

In these circumstances, I request that you will be so good as to kindly intimate the P.W. Department, that the work will be taken up for execution by the Sanitary Board agency and that all possible help may be given by the local P.W.D. officers. The tenders obtained for this work and pending acceptance with the Superintending Engineer, Mysore Circle, may also be kindly ordered to be sent to the Sanitary Board for taking further action.

Kolar Gold Fields Sanitary Board High School building.

Adverting to Government Order No. I. 4832-5/LB. 61-36-4 dated 9/11.1.37, sanctioning the estimate for Rs 14,480/- for constructing the building for the location of the above High School at Kolar Gold Fields (copy of which is enclosed herein). I have the honor to state that at present the High School is being held in a small rented building in which only 1Vth Form class is being conducted. As the Vth form class will have to be opened from the next academic year and as there is not sufficient accommodation in the present building for both the classes, the new High School building will have to be completed by the end of May 1937. I request you to kindly dispose of the work on contract by calling for tenders prescribing as short a time as possible within which the intending Contractors could submit their tenders to your Office. An express condition may be kindly specified that the building should be completed and handed over by the end of May 37 so that the classes may be held in the new building from the next academic year. After intimation of the disposal of tenders, the necessary funds will be placed at your credit.

I request you to kindly take immediate action in the matter, as the interval available is short, The plan and estimate are enclosed. The site for the building is the open space opposite the Travellers' Bungalow at Robertsonpet.
